

NOTES:

- Transfer to muslin (or similar) and pin together to test fit before cutting fur
- Scale up or down as needed
- Take your time :)
- Leave 1/8-1/4" of space around borders for stitching
- If adding a hair tuft, make sure that fur is longer than surrounding fur or it won't stand out
- Tapering the top (light grey lines) may be useful for a more snug fit around face
- Ears can be repositioned as necessary
- This pattern can also be used to make a lining, if desired
- Basically everything is editable, GLHF!
- Not for commercial/resale use unless otherwise agreed.
